+9310656923 ◇ Delhi , India

gaurpratishtha1603@gmail.com ◇ www.linkedin.com/in/pratishtha-gaur-1603pg ◇

OBJECTIVE

Aspiring Software Engineer , seeking to apply coding skills in real-world projects.

EDUCATION

Bachelor of Technology, Maharaja Agrasen Institute of Technology (GGSIPU) Expected 2027
CGPA - 8.5

Senior Secondary - CBSE, St. Marks Sr. Sec. Public School Year of completion - 2023
Percentage - 95

SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS
Backend	Node.js, Express.js
Database	MongoDB, SQL
Programming Languages	C, C++, Java , Python

PROJECTS

Wellness360 — AI-Powered Health & Fitness Tracker

Tech Stack: React.js, Typescript , Tailwind CSS, Node.js, Express.js, MongoDB, LangChain.js

Built a full-stack web app that generates personalized AI-based meal and workout plans using LangChain.js. Developed a dashboard for daily check-ins and task tracking, helping users monitor nutrition and fitness goals. ([github link](#))

Let's Travel – Full-Stack Web Application (MERN).

Developed and deployed a travel website where users can explore posts about various destinations, view detailed information, and access embedded maps. Implemented middleware for authentication, error handling, and request logging to enhance security and efficiency. Followed the MVC architecture by separating concerns using controllers to manage business logic. Deployed on GitHub and Render for live accessibility
